A Lunette Stela of Pasenedjemibnash in Cairo Museum CG 22151

ALI ABDELHALIM ALI*

THIS research is an analytical study of a round-topped limestone stela,¹ currently stored in the Egyptian Museum in Cairo (CG 22151). The stela was made for Pasenedjemibnash² and dates to the first half of the 2nd c. BC.³ It was discovered by Urbain Bouriant in the cemetery “Al-Hawawish” at Akhmim in Upper Egypt during the excavations by the French Mission under the supervision of Gaston Maspero in 1884-1885.⁴

* Ain-Shams University. I am grateful to my colleagues in the Egyptian Museum for permission to publish this stela.

Kamal transferred the hieroglyphic inscriptions to his General Catalogue (A. KAMAL, *Stèles* I, p. 138-140, pl. XLVI).

Description

[FIG. 1-2]

The stela is in a good state of preservation. It has fine relief scenes and hieroglyphic inscriptions, both of which are executed in sunken relief. It is divided into three parts: lunette, horizontal register and vertical rectangle. Both the register and the rectangle are framed by one vertical incised line on each side as well as horizontal lines between each line of hieroglyphic text. Its height is 0,60 m and its width is 0,38 m.

Upper Section (Lunette)

As noted above, the stela is round-topped. The upper section is decorated with the winged sun-disk with a cobra hanging from each side. The cobra on the left wears the crown of Upper Egypt (Nekhbet), while the other wears the crown of Lower Egypt (Uto). Between the two cobras, the following phrase is inscribed: , *Bḥdt nṯr ʿ3 nb*, “Behdite, the great God,⁵ Lord of (sky)”. It is notable that the sky-sign, which is usually a part of the last phrase, is elongated to cover the register. Nineteen stars decorate this sky-sign.

Register

On the register is a scene of the stela’s owner facing six deities. All of the figures are standing⁶ and each is captioned with a short text indicating their name and titles. Pasendjemibnash is standing with his Ba-soul perched on his head. Both are posed in the attitude of adoration. In front of him a tall, slender offering table with long leg. On it sit flowers, loaves of bread, and a water vessel.⁷ The owner is dressed in a long garment. His titles, followed by his name, are written in two vertical columns in front of the *ba*-soul:

*Smꜣty imy-ʾs Pꜣ-sndm-ib-nʿs*⁹

Stolist,¹⁰ *councillor*,¹¹ *Pasendjemibnash*

⁵ Instead, U. Bouriant copied , “the perfect god”.

⁶ M. LICHTHEIM, “The Stela of Taniy CGC 20564: Its Date and its Character”, *SAK* 16, 1989, p. 205.

⁷ The same table with its contents is depicted on other stelae in Cairo Museum, e.g. CGC 22015; CGC 22017; CGC 22128; CGC 22136; CGC 22152. A *nw*-jar instead of the vessel in CGC 22053 and CGC 22035, while *nw*-jar with the flowers and without the loaves on CGC 22122.

⁸ The *p*-sign is between the *ʾs*- and *im*-signs. The latter two signs are transposed.

⁹ Note the forearm with the hand holding a stick (Gardiner, *Sign List* D 40) instead of the usual forearm for the phonogram ʿ.

¹⁰ For the transliteration *smꜣty*, see Gardiner, *Sign List* Aa 25. Greek Στολιστής means “one who clothes the god” especially Min and Horus. Besides clothing, the stolist was responsible for cleaning and anointing of god’s statue. In addition, he appears in the *sd*-festivals and the divine service at Memphis particularly for Min: W. Īst wrt mwt-nṯr

Isis, the great one, mother of the god (i.e. Horus).¹⁴

• *Horus* stands behind his mother (i.e. Isis). He is depicted as a falcon headed deity wearing the double crown and Uraeus. He wears a short kilt with an oxtail hanging down in the back. Horus holds the ‘*nh*’-sign in his hands and he is accompanied by the inscription:

Hr s3-Īst ndty-itꜣf

Horus, son of Isis, the protector of his father

• *Nephthys*, vested by a narrow garment, is depicted with the ‘*nh*’-sign in her right hand, while she holds up the same sign in her left hand. The inscription beside Nephthys is:

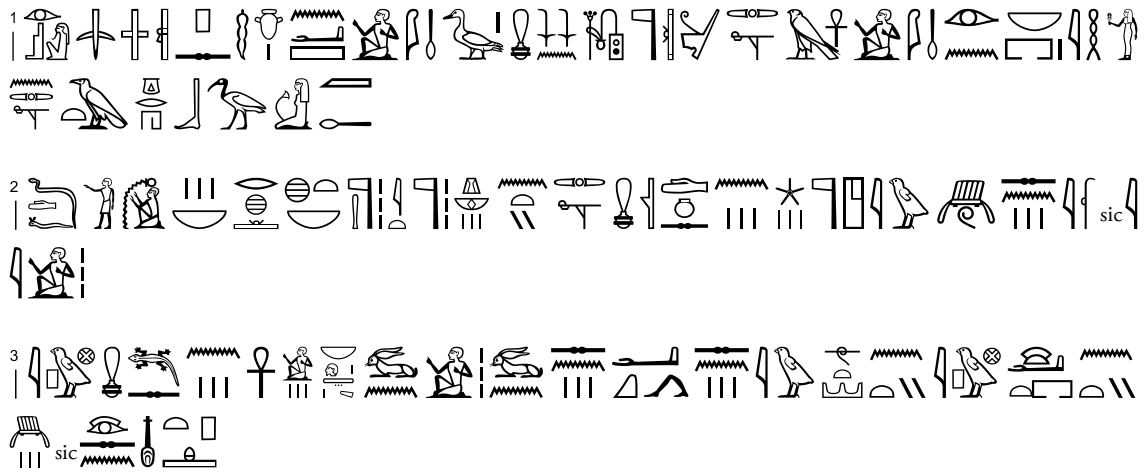

Nbt-Ḥt snt-nṯr

Nephthys, sister of the god

Main Text

The lower part of the stela contains a text in 20 horizontal lines running from right to left.

The image displays a series of 13 horizontal rows of ancient Egyptian hieroglyphs, each labeled with a number from 4 to 13. The hieroglyphs are arranged in a grid-like fashion, with some rows containing more than one line of symbols. The symbols include various birds (such as ibis, falcon, and duck), lotus flowers, papyrus plants, and other traditional motifs. Some symbols are accompanied by small labels like 'sic' or 'sic'.

Notes

1. A. Kamal (*Stèles* I, p. 138) puts — instead of  due to confusion with the hieratic *n*. U. Bouriant (“Rapport au Ministre de l’Instruction Publique sur une Mission dans la Haute-Égypte (1884-1885)”, *MMAFI* I, 1887, p. 375) puts  instead of .
2. Since the 22nd Dynasty in genealogies. It means “with the same titles and rank of his father and grandfather”: *Wb* II, 37, 10-11; H. 7. Almost the same in CGC 22054, 7, but it begins with vocative to those who live upon earth. The vocative is destined to the *wab*-priests of Osiris and of the king: M. KAMAL, “The Stela of *shp-ib-r*’ in the Egyptian Museum”, *ASAE* 40, 1940, p. 222; CG 20583, 21.

11. The sign  could have been mistaken for a similar one , which makes more sense. But other possibilities could be given here, namely *rnpyw* “young people” or also *imyw* “dwellers”: *Wb* I, 72, 13-15. In all cases the inhabitants of Akhmim are meant.

13.  in U. BOURIANT, *op. cit.*, p. 375. Cf. also *Wb* IV, 356, 9-10. The same phrase in CGC 22152, 9-10. But instead of entering, the text in CGC 22152 gives *ii=sn*. CGC 22174, 12 reads *ii=sn r sty nt snwt* instead of *lpw*. Since the Old Kingdom, the Ancient Egyptians prohibit entering to the tomb without being pure. 19. In this context, the verb *phr* should be translated as “endure”, which fits better than the original meaning “go around, circulate”: *Wb* I, 544, 12-547. 7; P. WILSON, *A Ptolemaic Lexikon. A Lexicographical Study of the Ptolemaic Texts in the Temple of Edfu*, *OLA* 78, 1997, p. 366-367. E. Otto (*Die biographischen Inschriften der ägyptischen Spätzeit. Spells in the Book of the Dead have the title of transforming into a living *ba*-soul, e.g. BD 85 in E. HORNING, *Das Totenbuch der Ägypter, Die Bibliothek der alten Welt*, BAW, 1979, p. 172-173; P. Thoth also bears the symbols of life and wind in BD 125 (TT 296): M. SALEH, *Das Totenbuch in den thebanischen Beamtengräbern des Neuen Reiches*, *ArchVer* 46, 1984, p. 66, Abb. 77.

A good parallel could be found in the next line (14) of the stela. Also, in Coffin Texts, the word *ḥb* takes the determinative of a man of rank seated on a chair (Gardiner A50), which refers to veneration, see G. ENGLUND, *Akh – une notion religieuse dans l’Égypte pharaonique*, *Borreas* 11, 1978, p. 67-71. The word *ḥb*

- occurs together with *rh-sw* in *Edfu* III, 121, 16; M-Th. DERCHAIN-URTEL, *op. cit.*, p. 66, who identifies the *ḥw* as “magical words”. General Commentary

The stela bears an unique depiction of the *ba*-soul perched on the owner’s head. As far as I know, this scene has no parallel. There are some Theban stelae, which depict the deceased together with his *ba*-soul, adoring the sun-barge. The *ba*-soul on those stelae is standing in front of the deceased.¹⁵ On the stela of Hor-Min in the Berlin Museum, the deceased holds his *ba*-soul on his left arm.¹⁶

Another distinctive characteristic of this stela concerns with the sky between the lunette and the register. This sky serves a double function: it represents the sky over the scene, in addition it stands for the word *pt*, which comes in the *bḥdt- ntr- ʿ3-nb-pt* formula.

Although its meaning is somewhat obscure, the main text on the lower part of the stela could be divided several items:

1. The introduction (line 1), including information about the owner: his name, titles, and parents (genealogy). It is repeated in line 11. It is remarkable, that the scribe does not use the same expressions, such as *mī-nn* and the title of Tagelibus (*iḥyt n Mnw*). He uses the egg, instead of reusing the goose for “son”.
2. An appeal to the gods, priests (six categories: *wʿb*, *rḥw-iḥt*, *ḥm-ntr*, *it-ntr*, *wnw*, *ḥryw-ḥbt*) and inhabitants of Akhmim (lines 2-4), to guard the stela and protect it.
3. An appeal for offerings using the offering formula (lines 4-12).
4. A self-portrayal (lines 13-16), in which social and ethical aspects, as well as the owner’s piety, are put forth.
5. Wishes for the afterlife (lines 4-14, 17-18).
6. Wishes for his successors (lines 17).
7. A threat (lines 18-19).¹⁷
8. A promise for security (lines 20).

The deities are mentioned either directly or alluded to. The gods and goddesses on the register are mentioned again in the text (lines 4-6). They are described as gods and goddesses or as the pantheon of Akhmim and its necropolis. Each deity has his or her proper epithet connected to Akhmim: Min-Re is “Lord of Akhmim”. Moreover, the god Min-Re is described

as a “noble god” and “king of the gods” (lines 16-17). The god has a special temple in the text, the “house of the moon” as well. This house could refer to the connection between Min-Re to Thoth, the lunar-god. The “temple of his mother” refers to the temple of Min-Re at Akhmim.

Other gods in the register (Aperet-Isis, Sokar-Osiris and Isis) have the title “*hry*”, “in the middle of” and refers to visiting deities. On the other side, Nephthys has no title with respect to Akhmim in the main text, while Horus has the particular title “great in Akhmim”. Horus and Min-Re are strongly connected. Both are children of Isis and Osiris.¹⁸

In addition to the main gods of Akhmim, some funeral aspects of the cosmic gods are to be considered: Re is lord of the sky, Geb is lord of the earth, Osiris is lord of the netherworld (lines 8-9). The winds are connected to Tatenen and Atum (line 10), while the place of punishment is related to Hathor as goddess of the necropolis.

Also, there are some allusions to some deities, whose titles are mentioned in the main text, such as Thoth (*rh-sw*, line 12). Thoth had an importance in Akhmim, especially in his connection to the family of Pasenedjemibnash, whose mother’s name is Tagerheb. Heb is a part of the latter’s name and developed into the Greek word (ibis), the sacred bird of Thoth. In the necropolis of Al-Hawawish, many Ibis mummies were found.¹⁹ In addition to his connection to the mother of Pasenedjemibnash, the house of the moon is accented.

Furthermore, the main text contains some philological, paleographical and epigraphical characteristics.²⁰ To express the meaning of “all or whole”, the following structures are used: *nb* (lines 2, 3, 6, 7, 8, 9, 16, 18, 20), *mi-qd*+suff. (line 2), *r-3w*+suff. (line 2), *mi-š*+suff. (line 3), *nbw tp t* (line 3). This variety of suffixes enriches the context and avoids redundancy. In addition, the text contains a kind of pun by using the similar sounding words. This pun is a technique known from rhetoric. Such cases are: *wnw wn=sn* (line 3), *phr s3=tn hr s3=tn* (line 4), *irr(w) [...] ir(y)t [...] irw [...] ir(w) [...] irw* (lines 13-14). Some words and signs are written in several forms:

1. The verb  *dg* and the word  ‘*h*’ are fully written in line 4, and then abbreviated ( and ) in lines 16, 18 and 20.
2. The word *s* (man) is written normally in line 18, but in an unusual way  in line 20.
3. The determinative of *hb* occurs in two forms:  in line 1, and  in line 11.
4. The definition particle *p* is written in two different ways:  in line 1, and  in line 11.

Some hieratic signs are used in the main text, surely because the scribe copied the text from a papyrus scroll.

1. The sign *n* is written as ²¹ in almost every line except for line 15, where  for *mw* (water) and *ibw* (thirsty) is found.
2. The small circle  is used for the signs  (line 6);  (lines 3, 5, 6, 15, 16);  (lines 4, 7, 10, 16);  (line 9); and  (lines 2, 7, 8, 12, 13, 14, 16, 18, 19).²²
3. The  sign (line 3) is similar to the *mn*-sign (line 20).
4. The negative (*n*) is  in lines 9, 10, 16, and 19, but  in lines 11, 12, 17 and 18,  in line 12,  in line 12. It is similar to the word *h' n*.
5. The word for clothes (*mnht*) is written ²³ (line 15).
6.  stands for the trilateral-sign *h'* (lines 4 and 16). It seems to be a *shm*-sign.²⁴
7.  for the vocative (lines 2 and 16).
8. ²⁵ is used as a determinative for *hnms* (line 15).

Confusion between signs is also attested in the main text, such as:

1. The sign  for  lines 2 and 9.
2. The  *nds*-bird as a determinative for words for “bad” (lines 12, 16, 17, 18, 19) is replaced by the  *wr*-bird. The latter is correctly used only in lines 5 and 11.
3. The word “million” (line 4) is placed between the *st*- and the *t*-sign.
4. The scribe added the suffix *=f* after *mwt* (line 6), apparently as a correction.
5. For the word *h'p*, the scribe put  and  upon the  (line 3).

As shown in the previous pages, our stela presents a unique example of both depiction and text from Ahkmim. Therefore, this study could be a beginning for a wider project on the stelae of Akhmim from Greco-Roman period. This project will provide Egyptology with rich information on titles, society and funeral aspects at that time.
