## Six Demotic Inscriptions on Stone from Tuna el-Gebel

MAHMOUD EBEID

THE SIX demotic inscriptions published here are engraved on limestone objects,<sup>1</sup> or on limestone blocks<sup>2</sup> (nos 1, 2, 6) or stelae<sup>3</sup> (nos 3, 4, 5). They were found in Tuna el-Gebel necropolis. The first two objects (nos 1, 2) were found during Cairo University excavations carried out by S. Gabra and others, while no. 3 was found during the excavations of the joint archaeological mission of Cairo and Munich Universities in season 2004. Nos 4, 5, 6 were found during the excavations of Munich University in seasons 1980 and 1983. The original place where nos 1, 2 (Inv. no. 1728/258, Inv. no. 1489/774, 29/s.s.) were found is unknown. According to the acronym *s. s* –“south-sector”– registered on the second object, they might have been found in the area of the funerary houses to the south of the tomb of Petosiris. They are kept now in el-Ashmonein magazine. As for TG 5275 (no. 3), it was found in a secondary Roman stone tomb (tomb no. 3) to the west of the wall of the tomb no. 1, and at the north eastern corner of the tomb of *Dd-Dhwtj iw=f'nh* on the eastern side of the galleries, and kept now in Tuna el-Gebel magazine.<sup>4</sup> As for TG 433, TG 109 and TG 428 (nos 4, 5, 6), they were

I am grateful to Prof. Dr M.A.A Nur El-Din, Prof. Dr D. Kessler, the team work of the joint archaeological mission of Cairo and Munich Universities in Tuna el-Gebel situation, to Prof. Dr O. El-Aguizy, and to my colleague Dr M. S. Ali, for their help and encouragement. For the photographs I would like to thank Mr P. Brose (Munich University). My thanks are also due to Prof. Dr S. P. Vleeming who has read my

manuscript and presented some useful corrections, suggestions and comments that I have included in my article.

found in the subterranean galleries (gallery C- C- 4) of the sacred animals (Ibiotapheion), and kept also in Tuna el-Gebel magazine.

Owing to the bad condition of these pieces, some strokes in the inscriptions could easily be confused during the preparation of the facsimiles with the natural faults of the stone surface.

## I. Limestone block

*Dating:* Late Ptolemaic period or early Roman period according to the script, but the early Roman period is more plausible here on account of the place in which the block was found.

*Description:* Rectangular block of limestone with an engraved demotic text of four lines; the text on the block is in a good state of preservation.

In this text *p3 'wy-ḥtp* refers to the subterranean galleries of the sacred animals in Tuna el-Gebel (Ibiotapheion), see G. R. Hughes, “The Cruel Father. A Demotic Papyrus in the Library of G. –  *n3 ntr.w p3 'wy-ḥtp*, *the gods of the resting place*. In the subterranean galleries of Tuna el-Gebel large numbers of the sacred animals are buried (baboons, falcons, snakes, shrews, etc.); they are all referred to as *p3 ntr*,<sup>6</sup> while the official name of the subterranean galleries in Tuna el-Gebel necropolis is “the resting place of the ibis, the baboon, the falcon and the gods who rest with them”.<sup>7</sup>

–  *swrd (n) p3 hb*, *caretaker (of) the Ibis*. The same title was mentioned in P. Louvre E 3333, 3 [,] and P. Louvre E 3334, 1 [,] and read by J. Ray as *swt*, *embalmer*, see J. Ray, “The Complaint of Herieu”, *RdE* 29, 1979, p. 107, p. 110. But now the reading *swrd/swrd/ swrt* is preferred, see K.-Th. – As for the formula  $n\text{ } ntr.w\text{ } p\text{ } '(.wy)-h\text{ } tp\text{ } d\text{ } i.t\text{ } 'nh\text{ } n\text{ } swrd\text{ } (n)\text{ } p\text{ } hb\text{ } P\text{ } -d\text{ } i-p\text{ } -hb\text{ } s\text{ } P\text{ } -y-Ws\text{ } ir\text{ } (?)$   $irm\text{ } n\text{ } y=f\text{ } rmt(.w)\text{ } dr=w$ , the gods (of) the resting place give life to caretaker (of) the Ibis  $P\text{ } -d\text{ } i-p\text{ } -hb$  son of  $P\text{ } -y-Ws\text{ } ir$  and all his people. [God X gives life to N.N.], as a formula of the votive inscriptions, see S. P. Vleeming, *op. cit.*, § 1, p. 250-253.

• Line 2-3

–   $P\text{ } -d\text{ } i-p\text{ } -hb\text{ } s\text{ } P\text{ } -y-Ws\text{ } ir\text{ } (?)$ ,  $P\text{ } -d\text{ } i-p\text{ } -hb$  son of  $P\text{ } -y-Ws\text{ } ir$ . For the personal name  $P\text{ } -d\text{ } i-p\text{ } -hb$  see *Demot. Nb.* I/5, p. 306; for the personal name  $P\text{ } -y-Ws\text{ } ir\text{ } (?)$   although the first element of the name resembles the article  $p\text{ } -$ , the reading  $p\text{ } -y$  seems more likely here especially that the article  $p\text{ } -$  occurs in each line of the text in a rounded form; as for the name  $P\text{ } -y-Ws\text{ } ir$ , cf.  $P\text{ } -Ws\text{ } ir$ , *Demot. Nb.* I/5, p. 360; *Demot. Nb.* I/8, fraglisches, p. 549; and cf.  $P\text{ } -y-Ws\text{ } ir\text{ } (?)$ , *Demot. Nb.* I/8, fraglisches, p. 566 (for the corrected hand facsimile of this name, see *Demot. Nb.* I/18, p. 180).

$P\text{ } -d\text{ } i-p\text{ } -hb$  son of  $P\text{ } -y-Ws\text{ } ir$  and all his people are the owners and donors of the dedicatory object.

– The sign  which follows the personal name  $P\text{ } -y-Ws\text{ } ir\text{ } (?)$  is written in a rounded form like the rounded forms of the article  $p\text{ } -$  in the text, so it could be read as  $\{p\text{ } -\}$  which ought to be inserted here.

$i\text{ } .ir\text{ } d\text{ } i.t\text{ } ir=w\text{ } p\text{ } '(.wy)-p\text{ } (s>y\text{ } m-b\text{ } z\text{ } h\text{ } p\text{ } hb\text{ } Is.t$ , who have let the bakery be made before the Ibis (and) Isis;  $i\text{ } .ir\text{ } d\text{ } i.t\text{ } ir=w\text{ } p\text{ } '(.wy)-p\text{ } (s>y\text{ } m-b\text{ } z\text{ } h\text{ } p\text{ } hb\text{ } Is.t$  is a relative clause followed by passive form, in which the antecedent –  $P\text{ } -d\text{ } i-p\text{ } -hb$  son of  $P\text{ } -y-Ws\text{ } ir$  and all his people donors of the dedicatory object – is identical to the subject.

In this text the vivifying gods are “the gods of the resting place”, while the gods to whom the bakery was donated are the Ibis and Isis, for further information on this formula in the votive inscriptions see, S.P.Vleeming, *op. cit.*, § 3, p. 254-255.

–   $p\text{ } '(.wy)-p\text{ } (s>y$ , the bakery, see W. Erichsen, *Demotisches Glossar*, p. 53, p. 139.<sup>8</sup> As for the writing way of  $p\text{ } '(.wy) - p\text{ } (s>y$ , one can observe that  was written without the house determinative  at the end, and the oblique stroke on the vertical sign is a natural fault on the stone surface. The determinative of the word  $p\text{ } (s>y$  [] depicting the brazier with flame rising from it []<sup>9</sup> runs in favour of the meaning *bakery*.

The inscription on this block commemorated erection of this bakery – the dedicatory object – for the production of the bread used for offerings in the necropolis.

<sup>8</sup> The reading  $p\text{ } '(.wy) - p\text{ } (s>y$  [ $p\text{ } '(.wy) (n) psy$ ], the bakery, the bake house, the house of baking, the house of cooking, was first established by G. Martha, see G. MATTHA, “The Word for ‘Bake House’ in the Demotic Texts”, *Miscellanea Greco-orientalia*, 1941, p. 133-134; G. MATTHA,

“The ἀρτοκοπεῖον in Demotic Texts”, *BIFAO* 45, 1945, p. 59-60; and see also Fr. DE CENIVAL, *Papyrus démocratiques de Lille (III)*, *MIFAO* 110, 1984, p. 49-50, 4, 1.

– As for the vertical sign  and its variant forms, it is problematic in Tuna el-Gebel demotic inscriptions, because it could be read *sh* and *n-tr.t*.<sup>10</sup> But the exact reading and meaning of the sign depends on the nature and the context of the text.

In the votive inscriptions preposition *n-tr.t* is usually followed by the name of the donor of the votive object.<sup>11</sup> In this text *Dd-hr* son of *Dḥwty-mn* **𓄏𓂃𓅓𓆎𓇗𓅓** who bears the rank “the priest of *Iy-m-ḥtp*, the Great, son of Ptah” who made the dedicatory object for the donors, is mentioned after *n-tr.t*. He might be one of the responsables for the Ibis organization in Tuna el-Gebel necropolis. As for the personal name *Dḥwty-mn*, see *Demot. Nb.* I/17, p. 1303.

### Commentary

#### • Line 1

As for the dating “Year 35, Mechir, <day> 5”, it might refer to the year 35 of the reign of Emperor Augustus [30 Jan.-31 Jan. 5-6 AD] who ruled between 30 BC-14 AD<sup>12</sup>.

#### • Line 2

- As for the name *Hr-nd-it=f*  see, *Demot. Nb.* I/II, p. 825-826.

*n nfr n nfr*  as a thing of real goodness. For the expression  *nfr n nfr*, a thing of real goodness, in the votive inscriptions almost written in hieroglyphic, see S.P. Vleeming, *op. cit.*, § 4, p. 255.

### 3. Limestone tomb stela<sup>14</sup> TG 5275

- Provenance:** Roman tomb no. 3 (to the east of the galleries), season 2004.  
**Material:** Limestone.  
**Dimensions:** Height: 27 cm; Width: 25 cm; Maximum Thickness: 8 cm.  
**Bibliography:** Unpublished.  
**Content:** Votive inscription.  
**Dating:** Early Roman.  
**Description:** Limestone stela bearing four incomplete lines of a demotic text partly damaged. Apparently the block was reused for other purposes.

<sup>13</sup> Prof. S.P. Vleeming suggested to me that this title might be read as *p3 sn' (?)*, “the baker” (see G. VITTMANN, “Zwei Spätzeitititel”, *SAK* 21, 1994, p. 338-343),

or *p3 hn (?)*, “the oarsman (?)”.

### Commentary

#### • Line 1

The traces following the title *Wsîr* are probably the first element of the name of the owner of the stela which continues on the next line.

#### • Line 2

The group  could be read *H'* or *H'<.w>(?)*.

#### • Line 3

As for the dating, year 42 is more likely although the text is damaged and is not clear in this part. It might refer to the year 42 of the reign of Emperor Augustus (Feb.-.... March 12th–13th AD)<sup>15</sup>, especially that the stela has been reused and the archaeological proof denotes an early Roman dating to this tomb. The rest of the dating which comprises the day is broken.

## 4. Limestone stela TG 433

**Provenance:** Tuna el-Gebel. Gallery C-C-4<sup>16</sup>. Season 1983.

**Material:** Limestone.

**Dimensions:** Height: 23,5 cm; Width: 24,5 cm;  
Maximum Thickness: 9 cm.

**Bibliography:** Unpublished.

**Content:** Votive inscription.

**Dating:** Early Ptolemaic.<sup>17</sup>

**Description:** Incomplete limestone stela. The upper part of the stela shows the figure of a god, probably Osiris, standing before an offering table. On the lower part, three demotic lines. The scene and the text are both engraved on the surface of the stela.

#### ● Line 1

As for the personal name *Ns-nhm-<sup>c</sup>n*, see *Demot. Nb.* I/9, p. 684. The following traces are probably a brief name or title following *Ns-nhm-<sup>c</sup>n*.

#### ● Line 2

– The traces at the beginning of the line might be the first element of a personal name, it could be restored as *[Dd-hr(?)]* as Prof. S.P. Vleeming proposed.

– As for the personal name *Hr-nfr*, see *Demot. Nb.* I/II, p. 824. The Group  which followed the name with the definite article *p3* might denote a title or profession. I have no satisfactory reading for this group.

#### ● Line 3

– The traces preceding *sm3-t3.wy* are probably the first element of the personal name.<sup>18</sup> As for the personal name *Sm3-t3.wy*, see *Demot. Nb.* I/12, p. 924-925.

–  *p3 hy.t*: The word *p3 hy.t* after the personal name *[.....]-sm3-t3.wy* could be taken as a title or as a profession. For further information on *p3 hy.t*, see W. Erichsen, *Demotisches Glossar*, p. 350; G. Vittmann, *Der demotische Papyrus Rylands IX, I-II*, *ÄAT* 38, 1998, p. 539-540 (P. Ryl. IX, col. XVIII, 1). As Prof. S.P. Vleeming suggested to me, this is probably to be taken as the noun discussed by G. Vittmann.

## 5. Limestone stela TG 109

*Provenance:* Tuna el-Gebel, gallery C-C-4,  
season 1980.

*Material:* Limestone.

*Dimensions:* Height: 24.5 cm; Width: 22 cm;  
Maximum Thickness: 6 cm.

*Bibliography:* Unpublished.

*Content:* Votive inscription.

*Dating:* Early Ptolemaic.

*Description:* Part of incomplete limestone stela, in a bad  
state of preservation; it bears two lines of  
G 109. demotic text which are partly damaged.

5. Limestone stela TG 109.

<sup>18</sup> As for these traces Prof. S.P. Vleeming suggested to me that they might be restored as *[..... s3* *P3-di-Hr-]sm3-t3.wy: [... son of P3-di-Hr-]sm3-t3.wy, or something like this.*

### Commentary

#### ● Line 1

For the personal name *Wr-dīw*, see *Demot. Nb.* I/3, p. 179. As for 'l(?), cf. W. Erichsen, *Demotisches Glossar*, p. 67.

#### ● Line 2

For the personal name *P3-dī-Wsīr*, see *Demot. Nb.* I/5, p. 298-299. The personal name *Nfr-sm3-t3.wy* is not attested in *Demot. Nb.* I. Prof. S. P. Vleeming reads the first name *P3-dī-īs.t* instead of *P3-dī-Wsīr* and considered the god's determinative at the end of the name as *mw.t(=f>: <his> mother*, followed by the woman's name *Nfr.<t>-sm3-t3.wy*.

6. Limestone block TG 428.

### The demotic text

[1] *t3 h.t n [ ]*

*The tomb of [ ]*

[2] *Wr s3 M3'-Dhwtj [ ]*

*Wr son of M3'-Dhwtj [ ]*

- Line 2

The first element of the personal name could be read also  $\dot{I}^{\prime}h$ ; as for the personal name  $\text{𐤀𐤓𐤕𐤓} M\dot{s}^{\prime}-D\dot{h}wty$ , see *Demot. Nb.* I/8, p. 583.

### *The Greek part*<sup>19</sup>

As for the Greek part of this text, the rough surface of the stone does not allow a coherent reading.

- Line 1

The reading: Πτ[ο]λεμαῖ[ος] or αἰ[ου] seems possible. The space for ο is a little bit too large.

- Line 2-3

The traces are weak; the reading: γυνή or similar can not be proved.

- Line 3

It is seducible to read ἔτων in combination with the age of the person following. But it is not possible to define the inscription as a tomb inscription.

It is uncertain if these are traces of another line above. In this case the stone must have been cut above secondary.
