The Longest Visitor’s Ostracon
Concerning the Temple of Deir el-Bahri
A Recombination of Two Pieces, Ostraca Cairo 430 and 432

INTRODUCTION

It seems that visiting ancient monuments of ancestors was a popular habit during the New Kingdom, particularly in the 18th Dynasty, and continued during Graeco-Roman times.\(^1\) Ancient visitors were keen to record their visits on the walls of the monuments i.e. tombs and temples.\(^2\) Visitors’ inscriptions constitute an interesting epigraphy, where the authors were careful to integrate them among the original decoration of the monument, and complied with the rules of tombs’ decorum.\(^3\) A few texts of this kind were recorded on three ostraca in hieratic script, all of which were found in the vicinity of Deir el-Bahri and date back to the first half of the 18th Dynasty.\(^4\) Each ostracon contains elements of the visitors’ formula, i.e. the incipit of the text \textit{ỉw.t pw ỉr n sš […] r mȝȝ}. These ostraca most probably did use this with a didactic aim, and they were probably considered as literary excerpts for students’ exercises.\(^5\)

In 2013 the first half of this ostracon (no. 432)\(^6\) has been published with a full commentary to its content.\(^7\) Dr. Chloé Ragazzoli drew my attention to its second half (no. 430), which was found like the first half in the basement of the Egyptian Museum in Cairo: after their recombination, the two texts form a large visitors’ inscription. This ostracon is therefore exceptional, both for being one of the rare ostraca that contain this kind of text and for recording the longest version of it on ostracon.

\(^1\) Den Doncker 2012, p. 25.
\(^2\) Hassan 2013, p. 189.
\(^3\) Navrátilová 2010, p. 310; Ragazzoli 2013, p. 273; Hassan 2016, p. 51.
\(^4\) Hayes 1942, p. 25; no. 97, pl. XX; Hassan 2013, p. 188; Ragazzoli 2016; Hassan 2013, p. 184; Ragazzoli 2016, pp. 66–67. Another visitor’s formula is partially mentioned on ostracon O. Campbell 22 in a hymn dedicated to Amon. Cf. McDowell 1993, pp. 29–30, pl. XXXI.
\(^5\) For more information about this hypothesis cf. Ragazzoli 2016, pp. 79–80.
\(^6\) This number represents the serial number that has been assigned by a team at the Cairo University, who was authorized to make a classification of the whole ostraca that are housed in the basements of the Egyptian Museum in Cairo, and does not relate to the entry or the temporary numbers of the museums’ registers.
\(^7\) Hassan 2013, pp. 183–191.
DESCRIPTION

This new piece of limestone is about 16 cm high and 19 cm wide with nine incomplete hieratic lines. Now the whole ostracon, after recombination, consists of twelve lines in black ink. It is clear that the two pieces were written by the same hand and belong together. Some of the beginnings of the lines are broken and most of their endings are wiped off. The last two lines are broken, and thus most of their content is missing.

NOTES ON THE PALAEOGRAPHY

As previously stated, the hieratic is written by the same hand throughout the text in a regular, compact, experienced, and well-organized appearance. The text is displaying the characteristic features of the early and middle of 18th Dynasty hand. The scribe was inclined to write each sign separately, thus the ligatures are relatively few; this attitude can be seen in the majority of the first half of the 18th Dynasty literary texts. In certain sections of the text, some signs are closer to their hieroglyphic shape than hieratic and this is clear in the forms of $\text{\textbullet}\text{\textbullet}$, $\text{\textbullet}\text{\textbullet}$. This could be a kind of renovation in the script in the middle of the 18th Dynasty, especially the time of Tuthmosis III, where the scribes tended to use full forms of the signs bringing them closer to the hieroglyphic forms.

1. $\text{\textbullet}\text{\textbullet}$ most probably stands for $m\text{\textbullet}\text{\textbullet}$.
2. $\text{\textbullet}\text{\textbullet}$ both signs are identical to the forms in ostracon 140 r of Deir el-Bahri.
3. $\text{\textbullet}\text{\textbullet}$ it is difficult to read the first sign, while the second sign $\text{\textbullet}$ could be read as $\text{\textbullet}$ but this is still uncertain reading.
4. The name of the scribe in the middle of the line is too faint to recognize it.
5. $\text{\textbullet}\text{\textbullet}$: according to the context, most probably to be read as $\text{\textbullet}\text{\textbullet}$.

COMMENTARY

This ostracon displays a classical visitor’s text, descriptive, followed by an offering formula, most probably dedicated to the scribe of the text. The significance of this ostracon is that it constitutes, as far as I know, the longest visitor’s text written on ostraca.

1. $s\text{\textbullet}\text{\textbullet}$: most probably the name of the scribe, identical to the one named at the end of the text (l. 10), being both the author and the beneficiary followed by the name of his parents. This way of writing the name of the graffitist with his filiation is known in the graffiti of the scribe Men in the tomb of Iti-ib-iqr with his title and the name of his mother and brother.
2. The meaning of this line after $\text{\textbullet}\text{\textbullet}\text{\textbullet}\text{\textbullet}\text{\textbullet}$ is a bit unclear, where the text is wiped away and the reading of the rest of it is uncertain. However, based on the reading of the word as $gr\text{\textbullet}\text{\textbullet}$ and also the context, one could suppose that the text describes the monument at night: “As for the night, look […] it looks like wonder for the” and then mentions the four individuals of the text. As far as I am aware, similar text with the night or proper names in the middle of the formula is unknown.

---

11 Hayes 1942, pl. XXV, 140 r. Based on palaeographical point of view, perhaps this ostracon is inscribed by the same scribe as the ostracon of Senmut tomb. cf. Hassan 2013, p. 190.
12 Verhoeven 2012, p. 52.
6–7. The individuals of the text do not occur in any other published visitors’ graffiti; however some of their names are attested in other texts such as $\dd{n.f}$, but it cannot be proved that they are the same individuals. It is remarkable that two of the names are inscribed with the seated man as determinatives, while the others are inscribed without determinatives.

10. The name of the scribe is preceded by $\dd{n.f}$; a similar expression is mentioned in the graffiti of the scribe Toury in the tomb of Khnum-hotep II at Beni Hasan.

OFFERING FORMULA IN THE VISITORS’ INSCRIPTIONS

In her study Hana Navrátilová classified the visitors’ graffiti into four categories i.e. antiquarian (or) descriptive, signature, piety-oriented, and the stroll-formula. The antiquarian formula shows an interest for the visited monuments, mentioning their names, owners and/or architectural elements. At the same time piety-oriented graffiti do not show any interest for the monuments themselves, the visitors having just written prayers and invocations to the deities of the site, or to anybody else. These prayers and offerings could be considered as a kind of ritual act. As for the offering formula, sometimes it was attached to the antiquarian texts as a combination between them, or it was inscribed in a separate space as a single piety text with solely the signature of the scribe. Most probably the scribe of the text dedicated these offerings to the efficacious souls of the ancient owners of the monuments’ or to the benefits of the visiting scribes themselves. The offering formulae in these texts vary between brief texts to a long and detailed formula, maybe accompanied by some rituals. The position of these formulae also varied from one text to another as follows:

– at the end of the antiquarian formula (1, 3, 4 A–B, 5 E);
– in the middle of the text, sometimes embedded in the antiquarian formula (2 A). This latter kind is very rare;
– pure offering text with the signature of the scribe at the end, maybe this text constitutes a piety formula (2 B, 5 A, C–D);
– the incipit $\text{ḥtp dỉ nsw}$ was regularly used as an introduction to the offering formula (2 B, 4 A, 5 A–E), however it could start with $\text{pr.t hrw}$, or with the offerings directly.
