Proceedings of the First International Conference on the Science of Ancient Egyptian Materials and Technologies (SAEMT)
Table of contents

Acknowledgments .................................................................................................................... IX
Preface by the Editors ............................................................................................................... XI

Paul Nicholson, Ian Shaw
Key Issues in the Science of Ancient Egyptian Materials and Technology ............... 1

María Victoria Asensi Amorós
Wood Types Found on Egyptian Weapons at the Louvre Museum ......................... 21

Julie Dawson, Tom Turmezei, Geoffrey Killen, Helen Strudwick
Revealing Interiors:
CT Scanning and Micro-CT Scanning of Wooden Coffins ........................................ 35

Trevor F. Emmett, Elsbeth Geldhof, Julie Dawson
A Practical Method for the Manufacture
of Egyptian Blue for Use in the Creation
of Low Relief Decorations on Third Intermediate Period Coffins .......................... 49

Basem Gehad, Brenda J. Baker, Ethan M. Braunstein, Noor Mohamed,
Mahmoud Ali, Mohamed Rageb, Karim Attia
Two Ladies from Lahun: Interdisciplinary Approach for Studying
Mummification and Burial Customs of 22nd to 24th Dynasty Mummies ................. 59

Basem Gehad, Julie Arslanoglu, Clara Granzotto, Marco Leona
Molten Versus Punic Encaustic: Interdisciplinary Analytical Approach
for the Determination of Methods Used
for Encaustic Painting Implementation ........................................................................... 75
Mohamed Abdelrahman Hamdan, Clara Jeuthe
Where Does Egyptian Chert Come from?
Preliminary Macroscopic, Microscopic, and Geochemical Results ........................................... 99

Anna K. Hodgkinson, Stefan Röhrs, Katharina Müller, Ina Reiche
Amarna as a Case Study for the Chemical Analysis of Late Bronze Age Egyptian
Glass Industries ...................................................................................................................... 111

Margaret Maitland, Jennifer Ross, Lore Troalen
Dye and Pigment Analysis of a Re-Discovered Early Roman-Era Mummy
Shroud from the Rhind Tomb at Thebes ............................................................................. 123

Claire Malleson
Archaeological Approaches to the Logistics of Feeding
Ancient Egyptian Workforces:
The Value of Traditional Techniques and Consistent Methods ......................................... 133

Elodie Mezzatessa, Carole Mathe, Annie Perraud, Cathy Vieillescazes
Die to Be Reborn: Analytical Tools ..................................................................................... 143

Akiko Nishisaka, Eissa Zidan, Miho Takashima, Takashi Nakazawa,
Yoko Taniguchi, Nour Mohamed Badr, Mamdouh Taha,
Hiromasa Kurokochi, Sakuji Yoshimura
Preliminary Analysis on the Mortars and Adhesives
Used in the King Khufu’s Second Boat ............................................................................. 155

Martin Odler, Jiří Kmošek, Marek Fikrle, Yulia Kochergina
Archaeometallurgical Study of Bronze Age Egyptian and Nubian Copper
Alloy Artefacts from the Egyptian Museum of Leipzig University:
A Concise Report ............................................................................................................. 169

Corina Rogge, Anders Bettum, Lucy Skinner, Anna Stevens
Differential Use of Yellow Pigments on Non-Elite Wooden Coffins Excavated
from the Amarna South Tombs Cemetery ..................................................................... 185

Sarah M. Schellinger
Scientific Analysis of Animal Mummies at the San Antonio Museum of Art ....... 197

Isabel Tissot, Lore Troalen, Maria Filomena Guerra
From Colour to Nanolayers: Corrosion in Egyptian Gold Work .................................. 211
Lore Troalen, Maria Filomena Guerra, Margaret Maitland, Matthew Ponting, Campbell Price

The Gold Working of Riqqa, Egypt: Analysis and Comparison Between the 12th and 18th Dynasties .................................................. 221

Alexandra Winkels

In situ Analysis of Ancient Egyptian Mortars and Plasters with a Mobile Field Laboratory on Major Archaeological Sites in Egypt ............... 233

Eissa Zidan, Ahmed Abd Rabou, Akiko Nishiasaka, Hiromasa Kurokochi, Mamdouh Taha, Sakuji Yoshimura

Scientific Identification of Wood Species of King Khufu’s Second Boat: A Preliminary Study ........................................................... 261
