I The First Steps on the Field	12
I.1 Definition of Methodology according to the Archaeological Context	13
Archaeological Survey	
Test Trenches	
Archaeological Excavation	
I.2 Management of the Ceramics during Fieldwork	14
I.3 Storage and Conservation Strategy	15
Labelling and Ensuring Long-lasting Readability of Tags	
Storage Containers	
Things to Avoid	
How to Store	
Humidity	
Shelving	
Sustainability	
II Ceramic Classification	19
II.1 Classification: the Language of Observation	20
Introduction	
The Structure of Classification	
Pragmatic and Analytical Approaches	
II.2 Field Sorting Pottery Groups	24
Purpose of a Field Sorting	
Creation of “Field Sorting Pottery” Groups	
II.3 The Pottery Fabrics	29
The Vienna System	
Petrographic Characterisation of Ceramic Fabrics	
II.4 Ceramic Laboratory Analyses	35
Optical Microscopy	
Scanning Electron Microscopy (SEM)	
X-ray Powder Diffraction	
Chemical Analyses and Statistical Treatment of Data	

II.5 The Concept of “<i>Chaîne Opératoire</i>”	40
A Theoretical Framework from the Anthropology of the Techniques	
The Technological Analysis of the Ceramics from Muweis (Sudan)	
Studying the Paste Preparation	
Linking <i>Chaînes Opératoires</i> with Shape and Decoration of the Vessels
